BOY SHOTS STEPFATHER

Child's Bloody Defense of His Mother in a Family Broil in Todd County.

A farmer named James Slaughter, living in the edge of Todd county five miles north of Kirksmanville, was shot and killed Saturday afternoon by his step-son, aged 13 years, a boy named Walker.

The report is that the family was mixed up in a domestic broil and

that Slaughter was mistreating his wife, the boy's mother. That he was attempting to strike Mrs. Slaughter with a single-tree or billet of wood, and Walker secured a gun and fired upon him, inflicting a wound that caused his death that night.

The boy had not been arrested at last accounts.

LARGER SALES LAST WEEK.

Association and Society of Equity Dispose of 131 Hogsheds.

THE AUDITOR'S REPORT.

Lugs Run From \$7 to \$10 and Leaf From \$10.50 to \$13.

There was an improvement in the local tobacco market last week over the week before and considerable of the weed was disposed of at schedule prices. The salesman of the Planters' Association sold 101 hogsheds of lugs and leaf. Prices ranged from \$7 to \$10 for lugs and \$10.50 to \$13 for leaf.

The Society of Equity salesman sold 30 hogsheds, all leaf, at from \$10 to \$12.

Reports from the tobacco crop sections indicate fairly good progress of both burley and dark tobacco. Rains, however, are seriously needed in some sections, although other sections have received a fair amount of moisture, and in some sections of the burley district abundant rains are reported.

At Mayfield.

The Mayfield Messenger says:
(Continued on Fifth Page.)

MEETING FOR STOCK LAW

Farmers Will Hold Mass Meeting On Monday, Aug. 3.

TO ORGANIZE COUNTY.

Wherever the New Law Has Been Tried It Has Given Great Satisfaction.

A mass meeting of those in favor of the county stock law, to be voted on this fall, is called for the first Monday in August, at the court house. It is the plan to effect an organization by districts and make a strong effort to carry the law. In parts of Todd county and Robertson county, Tenn., the law is in force and is giving great satisfaction. The stock ordinance in Hopkinsville, bitterly opposed 2 years ago, is now popular with everybody. Nearly everybody is selling iron fences and putting the money into concrete walks and in two years the colored people have saved enough in fencing for their gardens to put down sidewalks in front of their lots.

A trial is all that is needed and everybody will welcome the proposed law.

LAST DAY

For Filing Petitions for the School Election.

To-day is the last day upon which petitions for school trustees under the new law can be filed for the election Saturday August 1. Petitions in some of the eight districts had not been filed yesterday. In District No. 5, Mr. A. M. Henry will be elected without opposition.

GAVE BOND

And Examining Trial Comes Up This Week.

Katie Jefferson, col., charged with breach of the peace, was arrested near Church Hill Saturday. She furnished a bond of \$50 and her examining trial will be held before Judge Prowse one day this week. She is accused of cutting Ada Whitlock, col.

W. T. COOPER & CO.

The Old Swimmin' Hole.

When the dog star burns with vengeful eye in the heavenly canopy, when the sun rides like a fiery charioteer, when the golden wild pansies, the dog fennel and the ragweed flourish, thoughts revert easily to the "Ol' Swimmin' Hole."

It was located at a bend in the creek. During the spring freshets the swirling muddy waters had been hurled around this bend against the fibrous and dense roots of a group of willows. A swift, eddy whirlpool dug away at the soft sand and gravel until a mighty depth resulted. It was so deep that even that tremendous unit of measure, a fence rail, couldn't touch bottom. Right back of it, up over the bank, had been a wheat field whose golden stubble was yet virile and sturdy enough to punish bare feet and legs. On the other side was the shorter stubble of a fragrant timothy field which offered still less attraction for barefoot lads. Any way one tried to reach it meant a trip through purgatory to a paradise that manhood never realizes. Guarded and screened by the gentle willows, with just enough of sunlight and just enough of shadow, what boy could resist its allurements? Down below the water rippled swiftly over rock and sands where diversion might be had in catching crawfish and minnows in the bare hands. Then there was the tiny beach where one might bury himself in the hot blustering sands to acquire the proper tone of tan and freckles.

Is there anything sweeter in memory? Release from toil, a dash across the prickly fields, convention thrown to the winds off with shirt and trousers, and a plunge into the clear, cool waters! What matter if some loafer on the bank busied himself behind a clump of bushes in moistening and then tying one's shirt in ten hard knots? What difference did it make if some malicious fellow splattered one with mud when he was ready to come out? That was only excuse for one more plunge.

A thousand memories crowd in. There were dangers to beware. Right out in the deepest part there was a whirlpool, according to the big-boys, which only the sturdiest swimmer could overcome. If you couldn't swim strongly it would "suck you right down." Then there was that wicked "offset" beyond which small boys dared not go. There was but one way to avoid the "cramps," and that was to be both wrists in cold water before plunging in. Finally there remained to be watched the little dastard who couldn't swim, but who sat out in the shallows and "cracked rocks." The pernicious practice would burst eardrums, so the malefactor must be detected quickly and chased from the water.

In all your later life have you known anything like it? What mattered a licking "fer goin' in swimmin'?" You had tasted of the joys vouchsafed only to boyhood. One by one the years have stolen you away from those celestial pleasures of youth, but it will do no harm to think them over again.—Springfield Herald.

KERN IS A FINE MAN

Political Opponent Pays a High Tribute to the Nominee.

Indiana people in Washington, irrespective of party affiliations, commend the Denver convention for its choice of John W. Kern, of their State, as the Democratic candidate for Vice President.

Judge A. L. Wishard, of Indianapolis, a leading lawyer and Republican politician of the State, said, "I have known John Kern for many years. No man in the state commands more respect or has more friends. He is a man of that kind of ability which wins influence—the ability of common sense, backed by high character and unblemished good name. While I do not think Indiana is ready to vote for Bryan, the name of Kern has undoubtedly strengthened the Democratic ticket. The Democrats of Indiana are in good shape this year, I must admit. In Thomas R. Marshall, their candidate for Governor, they have put forward the biggest man of them all since Thomas A. Hendricks. I shouldn't wonder if Marshall were elected and with him a Democratic legislature, but on account of the nomination of Bryan I expect the State to remain in the Republican column."

Harsh physics react, weaken the bowels, cause constipation. Doan's Regulate operation easily, tone the stomach, cure constipation. 25c. Ask your druggist for them.

A Watermelon Romance.

A dispatch from Owensville, Ind., says: By carving his name on a large watermelon that was shipped from Owensville, Ind., last summer, Alva C. Montgomery, a farmer and melon raiser living near this place, has won a bride. The melon fell into the hands of Miss Anna Hardy, of Fairfield, and a correspondence followed that resulted in marriage. Montgomery and his bride will live on the farm near Owensville and raise melons, but Montgomery says no more melons that he ships will be engraved. He is one of the wealthiest farmers in Posey county.

Accidents will happen, but the best regulated families keep Dr. Thomas' Electric Oil for such emergencies. It soothes the pain and heals the hurts.

At the Waist

HAS REFORMED
One of the Police Department's "Steadies" Has Quit Drinking.

George Coleman, the colored boot-black, who has spent much of his time working on the streets for the city for several years, has reformed. About two months ago he was arrested for the usual offense, drunkenness, and put in the lockup. When he sobered up he called Chief Roper to him and told him he had concluded to take the advice of a street preacher who talked to him one day while he was shining the preacher's shoes, and quit drinking. He said the good man told him he was ruining himself by drink and he believed he was right and that he was going to get religion and stop drinking. He went into a season of praying and shouting which he kept up for nearly two days. In due time he got out and nobody has seen him drinking since. At any rate he has not been back in his old quarters.

WHAT THE KIDNEYS DO

Their Unceasing Work Keeps Us Strong and Healthy.

All the blood in the body passes through the kidneys once every three minutes. The kidneys filter the blood. They work night and day. When healthy they remove about 500 grains of impure matter daily, when unhealthy some part of this impure matter is left in the blood. This brings on many diseases and symptoms—pain in the back, headache, nervousness, hot, dry skin, rheumatism, gout, gravel, disorders of the eyesight and hearing, dizziness, irregular heart, debility, dropsy, etc. But if you keep the filters right you will have no trouble with your kidneys.

Mrs. W. I. Bailey, living on East Greenville street, Madisonville, Ky., says: "It is four years since I recommended Doan's Kidney Pills through our papers, and my confidence in them during the time which has elapsed has not been shattered in the least, but to the contrary, I learned more about them and can recommend them even more strongly. I said at that time that Mr. Bailey had suffered with kidney complaint, off and on for a number of years, and had used almost every known remedy for this trouble but nothing brought permanent results. He finally learned of Doan's Kidney Pills and got a box. They benefited him in every way, more so than all other kidney medicines he had ever tried. He has used them many times during the past four years, and they have never failed to give him relief from these severe attacks. I have used Doan's Kidney Pills myself for a weakened condition of the kidneys and they proved just as satisfactory in my case. We both think there is no remedy like Doan's Kidney Pills. For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doans—and take no other.

Morrison Against Taft.

Rev. H. C. Morrison, the evangelist and editor of the Pentecostal Herald, is sending out circulars asking the voters to repudiate William H. Taft as he repudiates Jesus Christ. He says that the Republican nominee denies that Jesus Christ was the Son of God and says that every minister of the gospel and layman of the faith, and every mother who loves the Lord, and every Sabbath-school teacher in the nation, ought to rise up and march to the polls on election day, singing "All hail the power of Jesus' name" and give Mr. Taft a rebuke that will go ringing around the world, up to

Pains at the waist, back, front, or side, are nearly sure proof of female trouble. Some other signs are headache, pressing down pains, irregular functions, restlessness, cold limbs, nervousness, etc. These pains may be allayed, the system braced and the womanly functions regulated by the use of

Wine of Cardui

Learn To Play Piano or Organ in One Hour

If you can't play by ear, we will teach you in one hour to play your favorite piece of music by the "Easy Form" method. You will then be ready to play at once any and all music written in this method, which is so simple that an eight-year-old child can learn to play the piano or organ in an hour without a teacher. Don't have a silent organ or piano in the house any longer. Try this method at our expense.

OUR OFFER: We will send you, express charges prepaid by us, a bound portfolio of 100 pieces of popular and sacred music in the "Easy Form" method, and our Guide to the keyboard and complete simple instructions, all you will need to begin playing your favorite pieces at once. Try the music seven days. If you want it send us \$1.00 within the seven days, and \$1.00 a month for five months thereafter. If you don't want it send it back to us in the seven days at our expense. Simply write us today and say: "I accept your free trial offer in the Kentuckian, Hopkinsville, Ky."

My piano or organ has white keys.
(IMPORTANT: Be sure to say how many white keys your instrument has.) Address, EASY METHOD MUSIC CO., 338 Wabash Ave., Chicago, Ill.

DEMOCRATIC TICKET.

FOR PRESIDENT
WILLIAM JENNINGS BRYAN,
Of Nebraska.

FOR VICE PRESIDENT
JOHN WORTH KERN,
Of Indiana.

FOR CONGRESS
A. O. STANLEY,
Of Henderson.

The three medical schools of Louisville have been merged with the University of Louisville.

In Fayette county it took a venire of 500 to get a jury in the W. R. Campbell murder case and then it resulted in a hung jury.

Frank Johnson, a negro hanged at Moundsville, W. Va., Friday for murder, confessed that he had killed four other people besides the woman for whose murder he was executed. He said his real name was Ed Walton.

Overcome by excitement at witnessing a home run in a ball game, a boy in Chicago jumped from a third story roof and was dashed to death. Moral: Don't get excited.

The old State house at Frankfort is to be preserved and new concrete steps are being built for the main building. One plan is to sell it to Franklin county for a court house.

A dispatch says a delegation of Panama women garbed in the quaint "pollera," the national dress, waited upon the new president, Domingo de Obaldia, and presented him with a "presidential sash."

Lieb After, a Russian boy 8 years old, unable to speak a word of English, made the trip from Russia to Des Moines, Ia., 8,000 miles, with a tag tied to his coat, arriving safely after a journey of two months.

Kessler's elephant mounted on a steam roller and ridden by Taft and Sherman is the best campaign cartoon of the season. The elephant's snout represents the engine and it holds a contribution box labeled "For Wall Street."

All but two of the Democratic candidates for Congress in the Ninth district have withdrawn and the race between Jas. N. Kehoe and Edgar B. Hager is nip and tuck. The nomination will turn on Harrison and Nicholas counties.

Princess Amelia Louise, of Furstenburg, Austria, wedded Gustav Koziar, a young mechanic, in spite of Royal protests. So persistent were the appeals to her that she fainted at the altar, but ordered the ceremony to proceed when she recovered, and publicly embraced her Jewish husband.

Student Drowned.

L. O. Fury, of Addyston, Ohio, a suburb of Cincinnati, and a student at Georgetown, Ky., College, was drowned Sunday afternoon in Elkhorn creek. He was a member of a boating party of three. A young woman of the party was rescued after having gone under three times. The father and mother of Fury were on the bank and witnessed his drowning.

\$100 REWARD \$100.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional cure. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surface of the system, thereby destroying the foundation of the disease and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

BOB HOWELL'S FUNERAL

Attended By Elks In A Body
And Many Friends.

The funeral of Robt. E. Howell was held at the Baptist church at 1:30 Sunday afternoon and was attended by a large number of friends of the deceased from Clarksville and South Christian, who came in at 11:20 over the T. C. and returned at 3:50. The beautiful ceremonies of the B. P. O. E. were conducted at the grave by Exalted Lodge G. H. Champlin and the Elks Lodge attended in a body.

Mr. Howell's sisters, Mrs. Lahan Smith and Mrs. Annie Pfeiffer and his niece, Miss Adeline Holloway, will return today to their homes in Colorado.

Mr. Howell was 53 years old and his last business was official prize for the Tobacco Association at Kentucky, Ky., at which he was engaged when his health failed.

ABANDONMENT

Is Alleged in Suit For Divorce.

Gerlie Bishop has filed suit for divorce from Albert Bishop. Abandonment is the allegation. According to the petition they were married in Montgomery county, Tenn., in February, 1900, and the separation took place the following April.

Sunday School Work.

Adrian Humphries, secretary to the superintendent at the Western Asylum, is superintendent of a flourishing Sunday school at Euergesia Christian church near Edgooten, and goes to the country every Sunday to look after the work.

SALOON MEN CONTEST

The Recent Prohibition Victory In Madisonville.

The saloon forces of Madisonville, through their attorneys, have filed a notice of contest of the recent local option election held in that city. The anti-saloon forces were victorious at the polls, after a close and hard-fought campaign on their part, by a majority of 37. The election occurred on July 18th.

The grounds given are that it was an undue and illegal election and returns were untrue and fraudulent, and the election was held without authority or warrant of law.

MAD CALF DIED.

Victims of Rabid Dog Have Returned From Chicago.

J. H. Denton and Edgar Boyd, col., who were bitten by a mad dog east of town about three weeks ago, have returned from the Pasteur Institute at Chicago, satisfied that all danger is past. It cost them about \$150 apiece. The fiscal court made an appropriation to pay the negro boy's expenses.

In the same neighborhood a few days ago a calf died of hydrophobia, having evidently been bitten by Mr. Denton's dog before it was killed.

HE WAS ASSASSINATED.

Young Husband Found With Gunshot Wound In Back.

Grayson, Ky., July 18.—Elmer James, aged 19 years, living six miles north of here, was found dead in the road today. He left his wife and baby early in the morning to work his crop. Before noon a passing neighbor found him with a gunshot wound through the back. There is no clue.

Train Kills Man.

Central City, Ky., St. Holland, 54 years old, was instantly killed by fast-passenger train 101 going West at a crossing near here Saturday afternoon. He walked on the track just as the train was about to pass. Whether he did not hear the train coming or was too frightened to move out of the way or intended to commit suicide will probably never be known. A daughter witnessed his death. He leaves a family of grown children.

Now Ready. Get one by Aug. 1 or the fine will be \$5. Call on ELLIS ROPER, Chief of Police.

NO FAILURES.

All Applicants for Teachers' Certificates Passed.

The July examinations for applicants for county teachers' certificates was held by the Christian County Board of Examiners Friday and Saturday last at the Clay street school building. There were ten applicants, seven young women and three young men. All of the applicants passed successfully and have been awarded certificates. There were three of the first-class, three second and four third-class certificates. This was the first examination in quite a while where there were no failures. Following is a list of those who took the examination and were issued certificates to teach:

Misses Elizabeth Roscoe, Lurline L. Wadlington, Sadie L. Redd, Naqma Parker, Besse Gary, Mary Seargent, Mildred W. Hall, and Messrs. R. C. Crick, Rance McIntosh and M. J. Parker.

Miss Mary Baynham, of Kennedy, daughter of Mr. T. J. Baynham, also took the examination and made a splendid grade but she is too young to be granted a certificate. The July examination of applicants to teach in the colored schools of the county will be held Friday and Saturday of this week.

CASTORIA.
The Kid You Have Always Bought

Office: Hopper Building, Main Street, Opposite Court House, Hopkinsville, Ky.

All parties wishing to sell or buy real estate would do well to call on us. Parties wanting to build or improve their property are solicited for contract work.

RHEY STANLEY,

Young Man Prominent in Paducah Social Circles Drowns.

Paducah, July 20.—Rhey Stanley, 19 years old, was seized with cramps while swimming and drowned on an island at the junction of the Tennessee River, near this city, Saturday afternoon. His body has not yet been recovered. The young man was popular socially and was possessed of a magnificent tenor voice. He had been studying for the operatic stage in Cincinnati. He and a party of friends went to the head of the island about 4 o'clock to swim. He swam about sixty feet down stream after diving, when he suddenly screamed, "I'm drowning." They threw a rope to him, but he was so weak he sank, releasing his hold.

Operation for piles will not be necessary if you use Man Zan Pile Remedy. Put up ready to use. Guaranteed. Price 50c. Try it. For sale by Anderson-Fowler Drug Co. Incorporated.

CHAIRMAN PREWITT

Issues Call For Democratic State Committee to Meet July 29th.

Mt. Sterling, Ky., July 18.—Henry R. Prewitt, chairman, of this city, has issued a call for a meeting of the Democratic State Committee to be held in Louisville Wednesday, July 29, at 12 o'clock, for the purpose of electing a secretary, appointing a campaign committee and transacting such other business which may come before that body. There are two candidates for secretary, G. G. Speer, of Lawrenceburg, and R. G. Phillips, of Elizabethtown.

REVOCAION

OF CHARTER

Hawesville Council Instructs Attorney to Go after Telephone Co., in Courts.

Hawesville, Ky., July 18.—There is considerable turmoil here over telephone matters. The Cumberland company has discontinued the free service of subscribers to Perry county, Ind., which they have enjoyed for several years, or since the telephone exchange was established here. Cannelton and Tell City are both in Perry county and these two towns have had much business with the Hawesville and Hancock county people, and the announcement of a ten-cent charge has caused a revolt and many of the telephones have been ordered out already.

At the council meeting on Tuesday night City Attorney E. E. Kelley was directed to notify the company that it was now charging in excess of the rates agreed upon when the franchise was granted and that he was directed to take steps to have the charter revoked in case the rates were not kept within the provisions of the charter.

RED HAIR

Predominates in the Caudill Family.

Lexington, Ky., July 18.—The annual reunion of the Abel-Caudill family is being held in Rowan county today. Father, mother, ten sons and five daughters are participating. There are two twin sons with red hair, who married red-haired twin sisters, and they have red-haired twin children. These latter are known by photos over the country, and were a special exhibit at the St. Louis World's Fair.

A Dollar Goes a Long Ways When You Spend It with Us.

SEASONABLE SUGGESTIONS.

PARIS GREEN, Standard quality.
CHAMPION PARIS GREEN DUSTERS, undoubtedly the Very Best machine on the market. Come in and let us show it to you and tell you what some of the best farmers say of its work.

WHITMAN HAY PRESSES need no introduction.
MYERS HAY CARRIERS have no superiors.
McCORMICK HAY RAKES, MOWERS and TEDDERS are too well known for comment.

TWO REMARKABLE CURES OF ECZEMA

Over twenty-three years ago Baby had Severe Attack—Years Later Grandfather Suffered Torments with the Disease—Virulent Sores Developed from Knees to Toes.

BOTH OWER COMPLETE RECOVERY TO CUTICURA

"In 1884 my grandson, a babe, had an attack of eczema, and after trying the doctors to the extent of heavy bills and an increase of the disease, I recommended Cuticura, and in a few weeks the child was well. He is to-day a strong man and absolutely free from the disease."

A few years ago I contracted eczema, and after trying the doctors to the extent of heavy bills and an increase of the disease, I recommended Cuticura, and in a few weeks the child was well. He is to-day a strong man and absolutely free from the disease."

"I am as though I had never had that disease. I am well known in the vicinity of Louisville and Cincinnati and all this could be verified by witnesses. Mr. W. LaRue, Sr., Louisville, Ky., April 23 and May 14, 1907."

The agonizing itching and burning of the skin, as in eczema, the brightening of the skin, as in psoriasis; the loss of hair, the crusting of the skin, the scaling of the face, the facial disfigurement, as in acne—all demand remedies of extraordinary virtues to successfully cure them. Cuticura Soap, Ointment, and Pills are such standbys for testimonials of remarkable cures when many remedies and even physicians have failed. One set is often sufficient to cure.

Cuticura Soap (5¢) to Cleanse the Skin, Cuticura Ointment (10¢) for the most severe cases, Cuticura Pills (25¢) for the most severe cases. Sold everywhere. Write for Free Booklet. "Painful Skin Diseases." J. C. F. Ellis, Jr., 1000 Main St., New York City.

PAVEMENT ORDINANCES

Received Most Attention at the Council Meeting Friday Night.

MUCH ROUTINE WORK.

Business Was Not Completed and An Adjourned Session Was Held Last Night.

The council met Friday night with all the members present.

Street matters occupied most of the time and six new pavement ordinances were passed. Two were on West Seventh, one on Walnut, one on Campbell, one on Vine and one on Mechanic street.

Former Tax Collector H. C. Moore reported \$3,276 on delinquent taxes for the years 1906 and 1907 and Mr. Moore's proposition to collect the taxes as delinquent tax collector was accepted by the council and the finance committee authorized to make the settlement and transfer of the books.

The workhouse committee was directed to prepare a supply of stone to be broken by female prisoners and the Mayor announced that a more rigid prosecution of street walkers would be begun Monday morning and that all fines would be worked out on the rock pile.

Councilman Davis' street naming ordinance was introduced and discussed, but final action was deferred. Naming the streets now numbered from First to Sixth was the principal trouble, as it was feared confusion would result if streets and avenues were given the same numbers. This matter and several other matters went over to an adjourned session held last night.

HERE AND THERE.

A sheep raiser of Hardin county sold 246 lambs in one lot to a Louisville firm at 6 cents a pound.

Drs. Oldham, Osteopaths, 705 S. Clay St., Hopkinsville, Ky.

There are 1370 convicts in the Frankfort penitentiary. There are 3 white and 42 colored women. There are 655 whites.

It is intended for those who appreciate quality, for those gentlemen who enjoy a thoroughly matured, rich "Old Kentucky" liquor—I. W. Harper whiskey. Sold by W. R. Long, Hopkinsville, Ky.

For bargains in real estate call on J. F. ELLIS.

Personal Gossip

Misses Lenna and Verna Galloway, of St. Charles, and Miss Gusie Kuykendall, of this city, are visiting Miss Naomi Johnson, at Oak Grove.

Sunday was Children's Day at the Methodist church at Bolivar. A program was rendered by the Sunday School children and there was an impressive sermon by Rev. W. T. Miller.

Miss Louise Wood has gone to Clarksville to visit her uncle, Mr. Bowling.

Trice Waller is now at Mullins, S. C., where he has a lucrative position with a tobacco firm.

Mrs. J. H. Dagg has returned from a visit to relatives in Henderson.

Miss Marie Cobb, of Springfield, Tenn., who spent a week with her sister, Mrs. John E. Byars, returned home Saturday.

Mrs. P. G. Lander is visiting in Pembroke.

Edmund M. Starling, of Philadelphia, is here on a two weeks' visit to relatives. His family arrived several weeks ago to spend the summer.

THE FIREFLY'S LIGHT.

Scientific Analysis Shows It to Be Free From Heat Rays.

If light could be produced alone without heat, says a scientist in the service of the government, the real expenditure would be comparatively insignificant and abundance of light could be generated at very small cost. Nature has solved the problem of "cold light" in the evolution of the firefly and similar organisms. Man must unveil the mystery of their being.

In rare lamps at the best barely 10 per cent of the power used appears in the form of luminous rays. Less than 1 per cent of the energy value of oil or gas goes to light production in flame lights. In both cases light is only an incident of burning fuel for heat.

The problem of cold light has engaged the attention of some of the brightest minds of the present day. Some have tried to use the light of vacuum tubes excited by electric discharges, some have endeavored to obtain strong fluorescence or phosphorescence in certain substances by electricity, and others have sought to discover how the light is generated in the firefly and if possible to imitate the process, but success is yet unattained. We cannot strike the higher keys and leave the bass untouched.

The scientist referred to has shown by an analysis of firefly light that it is remarkably cool or free from heat rays. It is produced, therefore, with the highest economy and represents little energy. To accomplish that result by the same or other means is the problem.

Perhaps the solution will come through chemistry. It is believed that the firefly secretes a peculiar substance which, when oxidized by the air, is consumed, giving out only luminous rays. The time may come when this substance can be made artificially.

NEW AUTOMOBILE WHEEL.

Tangent Spoke Takes Place of the Pneumatic Tire.

One of the latest designs of spring automobile wheels is the invention of a California engineer. It is simple in design and is claimed to have stood practical demonstrations. The cushions of the wheel are of hard rubber, and the spring and smooth running of the standard pneumatic tire is made possible by the flat steel springs that form the lower part of each spoke. The upper parts of the spokes are fastened to the hub by a socket joint, and the lower parts or springs, connecting with each other by elbow joints, are solidly riveted to the inside of the wheel rim. The spokes cross each other near the hub and are tangent to it under all conditions—Popular Mechanics.

ORDINANCE NO. 33.

Ordering Pavement on West Side of Vine Street.

Be it ordained by the Board of Council of the City of Hopkinsville, Ky.:

That every person, firm or corporation owning any lots or lands situated on the west side of Vine street in the City of Hopkinsville and abutting on the west side of said street, between First street and the south line of the M. & F. College, be and they are hereby ordered to put down a line of

Beany Hendrix Of the Big Y.

By CLARISSA MACKIE.

Copyrighted, 1908, by C. H. Sutcliffe.

It was while he was riding down Little Bear trail that Beany Hendrix saw her. She was riding up the trail, and they met at the narrowest point, where the steep walls of the canyon shut out the sunlight, leaving a gloomy tunnel through which there was barely room for two riders to pass. Hendrix backed his cayuse against the rocky wall and tried to shrink his huge form into smaller compass.

She, Edith Van Tine, looked at him from the level of grave, gray eyes questioningly. She bowed politely and then smiled. All women smiled when they met Hendrix's genial gaze. They smiled in approval of the warm kindness of his good looking face, at the strength of his great body and at the good heart shining through his honest brown eyes.

Miss Van Tine's smile faded, however, as she saw the narrow trail that became almost a footpath as it wound up the canyon, and her cheek paled. In spite of this formidable outlook she urged her horse forward, bravely determined not to reveal her cowardice to this big cow puncher, who sat, hat in hand, waiting for her to pass.

"You're not afraid, are you, ma'am?" he drawled as she hesitated.

"Not in the least, thank you," she replied crisply.

"I was about to say," he continued soberly, "that if you're a stranger in these parts this is a nasty bit of country for a lady to get about in alone."

"Thank you," she repeated, still more coldly. "But I was only resting my horse."

Hendrix looked curiously solemn; indeed, his features assumed a rigid expression. One who knew might have said that Hendrix was suppressing a smile. He threw one leg over the pommel of his saddle, thus permitting his cayuse to hug the wall more closely, and looked amiably upon the pretty stranger. Pretty girls were rare in the Bear creek district.

She flushed under his frank, admiring gaze and dug her spotted heel into her horse's flank with angry impatience. The animal bounded forward, striking fire with his scattered hoofs. There was a faint cry from the girl.

"LET US GO TOGETHER ALWAYS," HE SAID CONTENTEDLY.

As she dashed away, and instantly Hendrix turned his mount and followed her.

It was impossible for him to pass her so the narrow trail without inflicting serious injury to either one of them, but somehow he managed to extend his long along his horse and grasp the bridle rein of her terrified animal.

"Now," he said kindly, "just let me follow you up till you get out of this hole. As I said before, this is a nasty bit of country for a lady to get about in."

"And as I said before," she began tartly, with eyes fixed toward the mouth of the canyon, "I'm not afraid."

"We won't quarrel about that, ma'am," returned Hendrix calmly. "There isn't room for two to quarrel here."

Edith smiled faintly. Beany Hendrix, riding at her horse's flank, could see the dimple in her cheek and the curl of her lip, and a troubled look came into his eyes, and a deep wrinkle found place between his brows.

As they passed out of the canyon and into the open she turned toward him. The smile had faded from her face, and there was a cold, hard look in the gray eyes.

"Thank you, sir, for your kindness. I believe I shall get along famously now."

Hendrix removed his hat and passed a bronzed hand through his shock of sunburnt hair. "If you will excuse me, ma'am," he said, with his slow drawl, "I'd like to say that you better ride home by the long trail; it's easy riding, and it's safer than the canyon."

"But I don't know the long trail. I have never been about here before," she returned blankly.

"I should be pleased if you will let me take you to the other trail, Oh, ma'am," he added hastily as she turned a doubtful glance in his direction. "I'm Beany Hendrix, from the Big Y suit."

"Beany Hendrix," she repeated, suppressing a smile.

"You never heard of me before, I

puncher," said Hendrix, with a dogged look about his pleasant mouth.

"Your name sounds familiar," she said, with a return to her stiff manner. "I will be very grateful if you will show me the other way around."

"Certainly," he replied, and at her side, and they rode in silence for several miles. Presently Edith became conscious that the cow puncher was observing her furtively, and her cheeks flushed. She turned indignantly toward him, but he was gazing fixedly away across the plain, although there was that in his face which clearly indicated some repressed feeling.

"I believe he is laughing at me," she thought angrily, and then, mindful of his gentle courtesy and of the fact that he was going out of his way to make her journey safe and pleasant, she turned a softened face toward him. "I am afraid I am making you a great deal of trouble," she said.

"Not at all," he returned. "I was not looking for some stray critters. If they should come up today I will tomorrow."

"That is what I like about this western country," she said wistfully. "There isn't that hurry and bustle of the east and the undying conviction that what isn't done today will never be done at all. Every day is so crowded with life, and there is no time to be lost. She spoke bitterly now, and her eyes were turned away toward the low line of serrated hills before them.

"I am sure you came from the east," he said quietly. "Where are you staying?"

"At Anderson's. You like the west better than the east?" she asked timidly.

He removed his hat and looked about the level expanse of country that was visible from the slight rise they had gained, at the bending blue sky, the green of the sagebrush and the greener slopes of feeding grounds dotted with cattle.

"Who would?" he replied briefly.

She sighed softly. "I didn't know it was so beautiful—out here," she said, rather sadly, he thought. "They said I must come for my health, and here I am."

"I came—because—somebody in the east was tired of me—said she never wanted to see me again," drawled Hendrix, turning his eyes away from her downcast face.

"Oh, no?" she exclaimed warmly. "Not that?" She blushed vividly.

"Something like that," he returned calmly.

There was silence for a time, she riding with drooping head and said mouth and he watching her with tender pity in his eyes.

"Here is your trail, ma'am," he said at last, drawing in his horse with sudden energy.

There was a startled look in her face as she raised her eyes to his and then glanced at the well defined trail that led to Anderson's.

"It's easy to follow and will take you straight as a die to Anderson's," he faltered as she turned her horse into the trail and glanced appealingly at him.

Hendrix hesitated. He saw the red creep into the corners of her cheeks and a strange light invade his eyes. "Safe as time, ma'am," he said stubbornly, facing his horse about and preparing to leave her.

She rode a few paces away from him and then stopped. "Benford," she said treacherously over her shoulder, "I don't want to go alone—any longer. I want you to come."

He was at her side instantly. "Do you mean it, Edith?" he questioned eagerly. "Do you mean it?"

"Yes," she whispered softly. "I came after you, Benford. I wanted you. Will you come with me—now?"

"Let us go together—always," he said contentedly.

Gave Her Carte Blanche to Eat.

A woman who has been a victim of indigestion and is kept to a dyspeptic diet most of the time was invited to a dinner which she was anxious to attend.

She went to her telephone, and, trusting to a somewhat unreliable memory, she asked to be connected by the ever obliging "central" with telephone 2304. When the connection had been made she began her plaintive query without any prefatory, "Is that you, doctor?"

"I want very much to go to a little dinner tomorrow night," she began rapidly, "and do you think it would hurt me if I ate just a taste of soup and perhaps a little fish or the least trifle of game and a bit of salad or let's really try my stomach?"

Here she was interrupted by a voice from the other end of the wire. "Madam," it said softly, "eat whatever you choose and as much as you choose. The more you eat the better it will please me. I am not your doctor, but I'm Burriam, the undertaker."

—Exchange.

Narrow Etiquette.

Harrow is not strict in customs, but even the school on the hill has a few peculiar to itself.

One of the most singular is that which strikes every visitor—the hugging of the wall in the street by small boys, whether they are in flannels or out of them, whether they are covered with mud or immaculately clean and smart, whether other and older pedestrians are allowed into the gutter or not.

Never do you see the younger Harrovians walking in the road. Why? Because that is "swagger," a crime of the first magnitude.

No custom precludes that the place for any boy who is not a "three-year-old" is as close to the wall as he can post-

THE FIRST LETTER

A Woman Writes.

THE FIRST LETTER that a sick woman should write or have some one write for her is to Dr. Pierce, of Buffalo, N. Y., asking him for "FAVORITE PRESCRIPTION" is suitable for her use, and he will frankly tell her so if he thinks it is. He may have to ask some questions before he can be sure just what the trouble is.

If you are suffering from dizziness, headache, the symptoms of which are headache, backache, sideache, pain in various parts of the body, especially in the pelvic region, bearing-down, inflammation, cloration, then Dr. Pierce will advise you to use his "FAVORITE PRESCRIPTION" for he has had a wonderful experience in the use of this remedy. It is NOT A PATENT MEDICINE BUT IT IS A VERIFIABLE PRESCRIPTION that became his "Favorite" when he was engaged in private practice forty years ago and he found that it cured more than ninety-eight out of every hundred of all such cases that came under his care.

The doctor found scores and hundreds of women who were being improperly treated because their troubles were not understood, and he determined to place this remedy that he had used so successfully within reach of the multitudes who were in such sore need of it.

He made it efficient, agreeable to taste,

and, best of all, safe for any woman, old or young, to use. It is NEITHER A STIMULANT NOR A SARCOTIC, just a vegetable tonic and invigorating medicine, composed of native roots of remarkable medicinal virtue in the treatment of this class of diseases, and its RECORD OF MORE THAN HALF A MILLION OF CURES entitles it to full confidence.

The one medicine for the cure of women's peculiar weaknesses and ailments, the ingredients of which are printed and placed upon every bottle leaving the Great Laboratory in Buffalo, N. Y., where it is made, is called Dr. Pierce's Favorite Prescription.

It Stands Alone not only is ingredients being known, but also as the only specific advertised remedy for women's diseases which absolutely contains no alcohol.

It Stands Alone as the one medicine for women, the makers of which take their patients fully into their confidence and tell them exactly what they are taking. This Dr. Pierce can afford to do, because his "FAVORITE PRESCRIPTION" is made of such ingredients and after a working formula that has thousands of cures to its credit, placing it merits above criticism.

I suffered with ovarian trouble for many months until I became quite discouraged, as there was scarcely a day when I was not in pain and my health was simply a wreck. I read one of your advertisements and decided that I would try Dr. Pierce's Favorite Prescription, as it seemed to have helped many who were suffering as I did. I found relief after using two bottles, and a cure in three months—from what I considered was hopeless. I am very grateful, and so pleased with my recovery. Life looks different to me now, and I shall always give the credit where it belongs—to Dr. Pierce's Favorite Prescription.

Send 31 one-cent stamps to cover cost of mailing and get a copy of the "Common Sense Medical Adviser" over 100 pages. Address Dr. R. V. Pierce, Buffalo, N. Y.

Pierce's Pills, first put up by Dr. D. C. Kelsey, have been much imitated, but never equaled. They're made of purely vegetable, concentrated and refined medicinal principles, extracted from native American roots and plants. They gently relieve and cure foul, torpid and deranged Bile, Liver and bowels and their attendant distressful ailments. One or two a laxative, three or four a cathartic.

MAKING PROSPERITY FOR TENNESSEE PURPOSE OF ANNUAL STATE FAIR

Aims at Improvement in Crops and Live Stock and in the Economics of the Household.

In Addition to Encouraging the People of the State to Do Their Very Best at Their Daily Work, the Fair Will Prove a Most Popular and Inexpensive Pleasure Resort—Every Provision Made for Entertainment of Visitors.

THE "OLD HOME WEEK" HAS BEEN MADE AN ANNUAL FEATURE

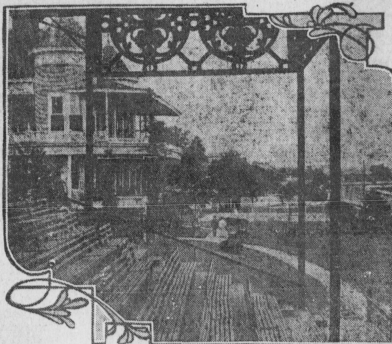

As the week for the Third Annual Tennessee State Fair—September 21 to September 26—draws near, the interest that is being manifested throughout the State of Tennessee and other States of the South guarantees that the practical value of the exposition will be even greater than in 1906 and 1907.

The Tennessee fair has taken its place as the leading agricultural and industrial exhibition in the South, and among the best in the United States. Already, after only two years of existence, it compares favorably with the old established institutions of the kind in the East and middle West.

From the first, progressiveness and a determination to give the people they serve the best possible value has marked the work of the Tennessee State Fair Association, an organization composed of leading men all over the State, and which has shareholders in every section. In this work the association has the support of the State government through the appropriations made by the Legislature. In every sense it is a State institution, having as its sole object the exploiting of the resources of Tennessee and the encouragement of her people to take advantage of them. Properly conducted annual expositions of this kind are true mirrors of the greatness of the commonwealths they represent and are now universally recognized as such.

Just as the excellent county fairs of Tennessee have long been taken as a gauge of local prosperity, the same way the State Fair has now come to represent the Volunteer State in the wider National field. Not only is the State known largely—very largely—by the State Fair it supports, but—and this is really the most important feature—it affords to the people of Tennessee and of southern Kentucky and of northern Alabama and to former residents who have gone to make their homes elsewhere, the opportunity to get together annually for mutual profit and pleasure.

By viewing and studying the exhibits presented and by listening to the lectures in the various departments, they keep up with what people in other sections of the State and of the country are doing to improve their condition in life—and with how they do it. Thus visitors to the Fair get valuable ideas that they can carry back home with them for the benefit of themselves and

A View from the Grandstand of the Tennessee State Fair, Showing Part of the Woman's Building.

their neighbors. As a matter of fact, it is the purpose of the Fair Association to give this exposition the "cashable" value of a short course at the State College of Agriculture, besides the stimulating features that one does not get without actually seeing what other people in the same business have been able to do.

Each year decided improvements have been made, and at the 1908 Fair the citizens of Tennessee and of sister States will have presented at Nashville for their study and inspection an immense exhibition of the fruits of the soil, of finely bred livestock and of the products of the factory. In every class, particular attention has been devoted to Tennessee-owned exhibits, and many of the classes have contests that are open only to residents of this state, though Tennessee invites the competition of the world for most of the prizes.

The actual money value to the State of the opportunity thus presented to its farmers to win cash prizes—and the reputation that goes with them—is really inestimable. Thousands of farmers, even though they do not exhibit, are encouraged to do their very best toward raising better crops—hundreds of breeders are induced by the same influence to turn their attention from scrubs to improved stock.

That opportunity may be offered for intelligent study of the various departments, they are carefully and systematically arranged in divisions and classes. Thus each building becomes a center of interest for those who are looking for information in the particular field represented by the exhibits exhibited. The best authorities agree that there is absolutely no other school of practical property-making than a well-conducted annual exposition of this kind. Every community in the state is benefited just in proportion as its citizens view and carefully study the displays. In addition to and in connection with the exhibits, in each department of the Tennessee State Fair, prominent men will lecture daily on subjects vital to those interested in the work of that department. There will be no charge, of course, for admittance to these lectures.

The influence of this young State Fair has already been felt in a very decided way in the improvement of the livestock in Tennessee and the South, the betterment of agricultural conditions and the advancement of Southern States as a whole. But it is not only as a medium of education—education that brings results which can be put in bank—that the Tennessee State Fair is of real benefit to the people who attend. The association annually provides suitable entertainment, consisting in part of free hand concerts, racing events, horse shows, free vaudeville features, etc., and the Fair thus serves as a pleasant outing for our people, many of whom cannot afford a stay at the various pleasure resorts.

The Fair also serves as a trying place for old friends—a place where they can come from different parts of the state, and of the United States, and meet and greet and have a good time. Many were the happy reunions held during the 1907 Fair, which was the first official "home-coming week" for Tennesseans. But during every State Fair week from now on, Nashville will keep open house—and open heart—for the wanderers who want to come back home and talk over old times. "Old Home Week" is permanently established in Tennessee, and each year during the entire six days of the Fair, the State Fair Association will extend a warm welcome to former Tennesseans, as well as to the present sons and daughters of the Volunteer State, and will arrange for their profit and pleasure exhibits and entertainment features unequalled at any fair in the South and unsurpassed anywhere in the country.

The accessibility of the Capital City, together with the low passenger rates that will be in force at that time, will make a trip to the 1908 Tennessee State Fair very inexpensive, and the visit will be amply rewarded by the

KENNEDY LETTER.

Numerous News Items From
Near the State Line.

Kennedy, Ky., July 18.

The farmers are through threshing wheat. The crop averaged about 10 bushels per acre. Tobacco and corn are looking well. The hay crop was light.

Miss Otey Bartley, of Hopkinsville, is visiting Mrs. T. J. Baynham.

Mrs. M. A. Meacham, who has been visiting her daughter, Mrs. T. J. Baynham, will return to Gracey Monday.

Misses Mattie and Mary Major, of Howell, are visiting Mrs. E. W. Royster.

Miss Mary Watts, of Trenton, has returned after visiting Miss Sarah Rollow for a few days.

Miss Mary Baynham is visiting relatives in Hopkinsville.

We had a very sad death in our neighborhood Friday morning at 1 o'clock, that of Mr. R. E. Howell, at his home.

Cleveland, the son of Geo. Vaughn, died Saturday morning at 3 o'clock with tuberculosis.

Miss Sarah Rollow entertained her young friends Thursday evening from 8 to 12 o'clock. The yard was beautifully lighted up with Japanese lanterns. All kinds of games and plays were engaged in by the little folks. Mrs. Rollow and Prof. T. M. Davis rendered some very fine music on the piano and violin. Several of the little girls rendered some very fine music on the piano.

Little Ada Baynham got the prize on a puzzle which was a box of candy. The dinner room was opened at 11 o'clock. The table was beautiful to behold. It was supplied with all kinds of ices and cake. It was amusing to see the little folks enter the dining room, each little boy with a little girl. Miss Sarah was assisted in receiving by Miss Katherine Garrett and Miss Virginia Barker, and to say that they performed their part well would simply be a mild way to express it. Mrs. Rollow, as she always does, did everything she could to make the little folks have a nice time. It was by far the most brilliant and enjoyable entertainment that has been given in this neighborhood. Those present were: Misses Katharine and Janie Jackson, of Sycamore, Tenn.; Miss Mary Watts, Trenton, Tenn.; Miss Adeline Holloway, Denver, Col.; Miss Willie Mallory, Franklin, Tenn.; Misses Louetha and Bertha Jones, Katharine and Mary Thomas, Elizabeth and Annie Garrett, Annie Hopson, Frances Canter, Catherine Garrett, Katharine Caroland, Mary Fort, Bernice McDaniell, Nell, Louise and Ada Baynham, Mary and Virginia Barker, Lou and Poley Allen.

The little folks will long remember the entertainment given them by Miss Sarah. J. R. Hill and Baylor Abernathy, of Hopkinsville, also attended the entertainment.

HEART TROUBLE

Caused Sudden Death of Mrs.
Henderson.

Mrs. Mattie Henderson, wife of Mr. Will Henderson, who resides on East Seventh street, died suddenly of heart disease Sunday afternoon. She had been suffering from organic heart trouble for some time but was able to be up and was apparently much better on Sunday than she had been for several weeks. Shortly after dinner she suffered a violent attack and died in about thirty minutes. Mrs. Henderson was about 22 years old. The interment took place at Ebenezer yesterday.

Wood's Liver Medicine is for the relief of malaria, chills and fever and all ailments resulting from deranged condition of the liver, kidneys and bladder. Wood's Liver Medicine is a tonic to the liver and bowels, relieves sick headache, constipation, stomach, kidney and liver disorders and acts as a gentle laxative. It is the ideal remedy for fatigue and weakness. Its tonic effects on the entire system felt with the first dose. The \$1.00 size contains nearly 21 times the quantity of the 50c size. In liquid form. Pleasant to take. Sold by Anderson-Fowler Drug Co., Incorporated.

Henderson Breathes Easy.

A telegram received yesterday from Assistant Attorney General John F. Lockett brought good news to Henderson. He wired City Attorney J. W. Clay that the reduction of the Henderson Bridge Company's franchise assessment from \$485,000 to \$32,900 was due to an oversight and that the board of valuation had held a meeting at his instance and corrected the error.

If the first assessment had held good the city of Henderson would have lost \$7,466, and the county of Henderson would have lost \$4,820.—Henderson Journal.

Sick headache and biliousness relieved at once with Bings Little Liver pills. A rosy complexion and clear eyes result from their use. Do not gripe or sicken. Good for all the family. Sold by Anderson-Fowler Drug Co., Incorporated.

Drops Dead.

Princeton, Ky., July 20.—Daniel Woods, an old and greatly esteemed citizen and business man, dropped dead Saturday morning at Cerulean Springs. He went out to the well at his home to draw a bucket of water, and while turning the windlass was stricken with heart failure, dying almost instantly. Until recently Mr. Woods resided in Caldwell county, and was a farmer near Cobb. He was about 70 years old.

A healthy man is a king in his own right; an unhealthy man is an unhappy slave. Burdock Blood Bitters builds up sound health—keeps you well.

FARMERS ASKED TO AID DEMOCRATIC PARTY

Bryan and Kern Call On Tillers of the Soil to Contribute to the National Campaign Fund.

DONATIONS OVER \$100 MUST BE MADE PUBLIC.

Fairview, Lincoln, Neb., July 20.

The first appeal for campaign contributions by the Democratic candidates for the presidency and Vice Presidency was made today. In a formal message directed to the farmers of the country, Messrs. Bryan and Kern urge them to contribute according to their means and in other ways assist in restoring Democracy to power. The appeal is as follows:

To the farmers of the United States: The first contribution made to the Democratic campaign fund this year, so far as we know, was made by an Iowa farmer; this man, who modestly prefers not to have his name mentioned, journeyed more than one hundred miles to Lincoln with his contribution of \$100, which he left with Mr. Bryan to be given to the committee when organized for the campaign.

This farmer was born in Sweden and for some time after he was naturalized was a member of the Republican party, but as he was a student of public questions in the course of time he became a Democrat. To manifest his deep interest in the triumph of Democratic principles, he made this free will offering to the campaign fund.

It is very appropriate that the first contribution should come from that great body of our population, known as agriculturists. The farmer has nothing to gain by privilege and favoritism; his hope is in the application of the doctrine of "equal rights to all and special privileges to none." He has been the victim of all special legislation and has suffered from the control of politics by the great predatory corporations. Now that the Democratic party has announced its determination not to accept contri-

utions from corporations, nor accept excessive contributions, even from individuals, to publish all contributions when over a reasonable minimum, it ought to be able to secure a sufficient sum from the citizens who ask from the Government nothing, but protection for the rights and consideration for the general welfare. There are hundreds of thousands of farmers, who are abundantly able to contribute to the campaign fund. There are thousands who could give \$100 apiece without feeling it; there's tens of thousands who could give \$50 apiece, without sacrifice and still more who could give \$25 or \$10 or \$5.

As the National Committee has not yet been organized, we will ask the Committee to call for subscriptions to this Farmers' fund. Those giving may indicate whether they are willing to have their names mentioned, and if the contribution is not more than \$100 their wishes will be complied with. All contributions above \$100 must be made known, no matter from whom they come.

The Farmers' fund will be turned over to the National Committee soon as its permanent officers have been selected. Who will be the first to respond? The Denver convention was a people's convention; it adopted a strong, clear, honest platform and its nominations were made with practical unanimity.

Our fight is a fight for the whole people. Our aim is equal and exact justice to all; our purpose is to restore the government to the hands of freely chosen representatives of the voters. How many farmers will join in furnishing the fund necessary to present the issue?

W. J. BRYAN.
JOHN W. KERN.

Kentucky's Vote.

The contention of the Republican leaders that Kentucky is a close State is based on returns in recent years. The various State elections in Kentucky since 1895 resulted as follows:

1895—Republican by 9,000.
1896—Republican by 276.
1897—Democratic by 17,000.
1899—Republican by 3,309.
1900—Democratic by 3,506.
1903—Democratic by 27,000.
1904—Democratic by 12,000.
1907—Republican by 17,000.

It will, therefore, be seen that since 1895 there have been eight elections, taking in the whole State. Of these four have been carried by the Democratic party and four by the Republican. It is worthy of note, however, that out of the five State elections since 1899, the Democratic party has carried four. Moreover, the Democrats have won the local elections in the off years in three-fourths of the counties of the

FAMILY WIPED OUT.

Horrible Auto Accident In
An Indiana Town.

Charles Sherman King, of Ft. Wayne, Ind., his wife and two daughters, Carl Timmins, the chauffeur, and Miss Fayme Bradshaw were killed in an automobile accident by being struck Saturday afternoon by a train on the Pennsylvania railroad west of Columbia City. The party was in Mr. King's automobile and was going from Fort Wayne to Lake Wawasee to spend Sunday. Mr. King was agent for the Prudential Life Insurance Company and formerly was a member of the Indiana Legislature from Wabash county.

"Suffered day and night the torment of itching piles. Nothing helped me until I used Doan's Ointment. It cured me permanently."—Hon. John R. Garrett, Mayor, Girard, Ala.

IN BLOODY ELEVENTH

The Democrats Will Nominate
Candidate August 4th.

Somerset, Ky., July 19.—The Democratic Executive Committee of the Eleventh Congressional district has issued a call for a district convention to be held at London on August 4 for the purpose of nominating a candidate for Congress in this district. Delegates to the London convention will be chosen at county mass conventions to be held at the courthouses of the nineteen counties in the district on Saturday, August 1. Up to the present time the only announced candidate is the Hon. A. G. Patterson, of Pineville, and it is to be understood that he is to be given the nomination this time by acclamation.

CASTORIA.

Do you know how to keep your children healthy?
Castoria is the answer.

Young Farmer Dies.
Cleveland Vaughan, aged about 24 years, died Saturday morning at the home of his father, Geo. Vaughan, near Elmo. He had been in failing health for six months. The burying took place at the Fields burying ground, Sunday. He was unmarried and was a popular and clever young man.

Aged Citizen Dead.

Princeton, Ky., July 18.—Abraham Cravens, an old and highly respected citizen of the Harmony section of Caldwell county, died Saturday afternoon of a complication of diseases. He was 82 years old and leaves a large family.
